ILT-2013/46533

TO WHOM IT MAY CONCERN

Not all vessels are obliged to be (fully) surveyed by EU and UN recognised classification societies. For this category, the Netherlands has developed a regulatory framework for recognition of private certification organisations. This framework is incorporated in the Inland Vessels Act. Organisations that comply with the criteria for recognition are allowed to perform statutory certification services and the issue of certificates for Dutch inland waterway vessels and seagoing vessels sailing the river Rhine.

I hereby wish to inform you that since 29 November 2013, the following private certification organisations have been granted authorisation to perform statutory certification services and the issue of certificates:

- Register Holland BV,
- Selles & Van Dijk Experts BV
- Nederlands Bureau Keuringen Binnenvaart.

This certificate has been issued on behalf of the Administration of the Netherlands

Yours sincerely,

THE INSPECTOR-GENERAL HUMAN ENVIRONMENT AND TRANSPORT MANAGEMENT, ALSO
COMPETENT AUTHORITY,
on behalf,
THE MANAGING DIRECTOR NETHERLANDS SHIPPING INSPECTORATE

A.E. Van Vuuren Msc.
